Hongkong, July 22nd 1909.

Hongkong is again "threatened." scheme is on foot to make Whampon a free port, to dredge its waters, so as to give sufficient depth for ocean-going steamers, and to connect the village with Canton by electric tram. Should this scheme be carried through it is suggested that Hongkong would lose a considerable proportion of its transport trade and its prosperity would be seriously affected. It is not the first time that some such proposal has been mooted. but so far no scheme has taken practical frighten Hongkong, but though the Kowloon-Canton Railway undertaking has in a measure distracted attention from Whampon and its possibilities, it is, we learn, certainly not the case that the Whampos development scheme has been allowed to drop. The Chinese who are concerning themselves at present with a future for Whampon are very sanguine and very ambitious. Although the harbour is now silted up and useless, they believe that dredging operations could ensure its being made available for large steamers. In that event it would provide more facilities and greater berthing accommodation than is possible on the river at Canton itself, and then ocean-going vessels might go right up the river to the new port without calling at Hongkong, An electric railway would provide an easy and speedy means of transit over the few miles which separate Whampoa from Canton, and enable Whampon to become the The hearing was adjourned.

indirect terminus of the Canton-Hankow Railway. The far-reaching possibilities of such a scheme are apparent, and the question naturally arises-Is it practicable? It is well known that Whampon formerly afforded an anchorage for the ships employed in the foreign trade with Canton, but many circumstances, which we need no now detail, have tended to bring about the decline of Whampon. The place possesses now only the memory of its former importance. More than once projects for railway and other enterprises likely to revive Whampon to the detriment of Hongkong transport trade have been discussed, but for some reason or other they have come to nought. Still the fact of their cropping up so frequently would indicate that the foundation idea is not se impracticable or impossible as some would have us believe, and, apart from Chinese sentiment, the opinion is widely entertained in the Colony among Europeans as , well as Chinese that with sufficient financial support the experiment would justify itself. When in the early part of 1905 it was known that Americans were endeavouring to arrange for a deepwater port near Whampon as a terminus for the Canton-Hankow Railway, it was felt to be a powerful reason for urging the British and Chinese Curporation to expedite the Kowloon-Canton Railway. And it certainly had this effect. Mr. MURRAY STEWART then Secretary and now the President of the local branch of the China Association, writing at the time to the London Committee, said Hongkong had no reasonable ground for objecting to the opening of any such port. But the matter takes on a new aspect now that the railway from Canton to Kowloon is under construction, for the question arises whether, in the circumstances, a rail way to carry freight between Canton

of the great trunk line, and would certainly be opposed to the terms of the railway agreement. Therefore, we think we may safely say it follows that for another thirty years at least the scheme will have to Editor, not for publication but as evidence of remain in abeyance, thirty years being the period covered by the railway agreements Thus the danger of Hongkong losing its pre-eminence as a port and dwindling from sits great importance as the distributing centre for South China, may still be considered as very remote, and, as threatened folks are said to live the longer, we may cherish the hope that with the opening of

and Whampoa would not be competitive

with the Canton-Hankow railway and

therefore an infringement of the

terms of the agreement made by the

Chinese Government with the British and

Chinese Corporation who have provided the

section of the line. A clause of the

agreement reads: "It is further understood

another line competing with this railway to

its detriment." To make Whampon a port

connected by a railway with Canton would

tend to make the place the indirect terminus

The Siberian Mail of the 30th ult. was delivered in London on the 20th inst.

shall be mutually beneficial to the Colony

and the neighbouring Empire.

ed for duty with the R.G.A. detachment, Legation Guard, Peking.

On arrival home early in the new year Captain B. S. Philpotts, Royal Engineers, now at Hongkong, will take up duty with the 33rd (Fortress) Company at Cork.

The Directors of the Great Northern Telegraph Company have declared an interim dividend of 5s. per share, being at the rate of 5 per cent. per annum, for the half-year.

Major W. M. Pyne, Royal Engineers, Cork, has exchanged with Major P. T. Denis de whape. The revival of Whampoa is a kind Vitre, Royal Engineers, ordered to Hongkong. of bogey which is held up now and then to The former officer will embark for Hongkong about the middle of October next.

> At a sale of rare British stamps in London recently the following prices were realised:-Hongkong, 1882, c.10, blue-green, unused copy, £3; 1897, \$1 on \$2, sage green, without Chinese surcharge, Mint state, £5; and \$! on \$2, green, variety with the sloping portion of the Chinese surcharge omitted, £3 3s.

> At a congregation held at Cambridge on 19th ult. amongst the degrees conferred was that of Bachelor of Arts upon Yu Huan Tsan. Trinity College. The Honours List contained the names of L. M. Sing, Trinity (Class II Historical Tripos, Fart II.), and T. Y. Lo. Jesus (Class III. Economic Tripos, Part II.).

> A neatly dressed Chinese woman appeared before Mr. F. A. Hazeland at the Magistracy yesterday on a charge of stealing clothing to the value of \$450 and \$90 in cash from one Ng Cheung Fong, who was stated to be her lover. Mr. Reader Harris (of Messrs. Wilkinson and Grist) presecuted, and Mr. Davidson (of Mesars. Hastings and Hastings) appeared for the defence.

A police raid at No. 25, Gilman Street, resulted in the arrest of eight gamblers. They were charged before Mr. F.A. Hazeland at the Magistracy yesterday, found guilty, and ordered to pay a fine of \$5 each,

New offices are being erected on the compound of the Central Police Station. These, we understand, are necessary on account of the work the Police Department are taking over from the Registrar-General.

A native employed at the Taikoo Docks attempted to leave there with a bundle of wood appearing before Mr. F. A. Hazeland at the Magistracy yesterday, was sentenced to seven days' imprisonment.

Some of the English illustrated papers by the latest mail contain a reproduction of a photograph taken during Admiral Lambton's recent visit to Japan showing the Admiral as the central life. figure in a group of Japanese ladies. "Admiral Lambton and the Anglo-Japanese Alliance" is the legend at the bottom of the picture.

In consequence of the steadily increasing development the Directors of the East Asiatic Company at Copenhagen are issuing a new 5. per cent, loan of 5,000,000 kr. through the chief bank at Copenhagen. The subscription rate is 99½ per cent. The company is working with a capital of 15,000,000 kr., reserves of 3,750.000 kr., and a debenture loan of 4,250,000 kr.

The balance sheet and profit and loss account of the Nederlandsche Handel-Maatschappij (Netherlands Trading Society) for the year 31st ended December last show that the net profits for the year amount to £344,269, out o which, after providi g for the statutory reserve to the extent of £31.072, a dividend of eight per cent, has been declared.

A Japanese appeared before Mr. F. A Hazeland at the Magistracy yesterday on charge of assaulting two lukongs, and a woman of the same nationality was placed in the dock for obstructing the police in the execution of their daty. It appears that the first defendant was desirous of giving the Chinese a gratuitous lesson in the art of jiu-jitsu, but the lukengs were not inclined to receive a lesson and decided to take him to the police station. The second defendant then intervened, and endeavoured to capital for the construction of the Canton arrange a settlement, the result being that she was taken to Wanchai Police Station with her friend. His Worship, after hearing the evidence, fined the man \$10 and discharged the woman. that the Chinese Government will not build

being undertaken by the Bureau of Public Works in the Philippines has recently been Kirkpatrick. It is the construction of an irrigation system in Norzagaray for the irriga-Angst river above the town of Norwagaray. The inspections made have shown that the scheme to irrigate the vast area and treble the present output of rice is a feasible one, and it is considered by far the most important one that has yet been prepared, and in all probability the largest that will ever be undertaken in any one province. Engineers of the irrigation division are now surveying the entire tract of land is proposed to irrigate and will report on the the railway we shall see before us a long result of their labour next month career of usefulness for our port which

Dr. F. Wisner, formerly President of the Can ton Christian College, in an article in the North American Review tells the following story Yuan Shi Kai: Sent to Shantung as Governor in 1900, to deal with the Boxers, he received delegation from them, and listened patiently to Captain T.C. Leah, R.G.A., has been appoint- their schemes for clearing out the foreign devil. They were confident that they could do this since "by the secret magic of their order all the followers were made invulnerable." He honoured the delegation with an invitation to dine company with some of the leading gentry of the place. After dinner he invited these men to explain their methods fully to the assembled guests. Then he adjourned to the outer court. " Now, gentlemen," said he, "we will put this matter to a practical test." The Boxers found themselves suddenly confronted by a squad of soldiers. It was in vain they protested. The word of command was given, and the muskets disposed at a single discharge of the claims of the imposters, and from that moment the new Governor had the Boxer movement by the throat in his province.

A telegram has been received by the Government of the Straits Settlements, intimating that the Anglo-Siamese Treaty was duly ratified in London on Friday, the 9th inst., that being the last day of the period within which the formal confirmation of the arrangement was fixed to take place. All the arrangements in connection with the taking over of Protectorates in the States of Tringgannu, Kelantan, and Kedah left Singapore for Tringgannu and will meet the Sultans of that State and of Kelantan. He will proceed to Kedah to take over sometime next month. Meantime the officers who have been chosen as advisers to the new States are preparing to take up their duties. Mr. J. S. Mason has arrived in Singapore en route for Kelantan. Mr. W. Conlay is proceeding to Tringgannu, and Mr. W. G. Maxwell will be in Kedah sometime before the visit of the Governor to that State. There is happily, says the Straits Times. every indication that the Protectorates will be assumed under the most favourable conditions.

Commander and Mrs. Gibbons left London on June 18 for China, travelling via Siberla Commander Gibbons takes up his post as Commender of the China Station of the United

The British Consul at Tangyuch writes in his annual report:-The British-American Tobacco Company, with methods of advertisement which bid fair to entirely capture the local cigarette market, have recently sent two travelling agents through the district. They have decorated towns and villages with gailycoloured Chinese posters, stirred the curiosity of the people by performances on the gramo. under his arm. He was detained by an Indian phone, and astonished them by the distribution watchman, handed over to the police, and on of the free samples. I hey appear to ha realised that strenuous measures are necessary | Cial year, in order to break through the conservative scruples of the natives, but they have also illustrated the truth that the Chinese, when once convinced of good value at a reasonable price, have the sound business instinct which will adapt any new commodity to their daily

States Navy on the armoured cruiser Charleston.

SUPREME COURT.

Wednesday, 21st July. IN SUMMARY JURISDICTION.

BEFORE HIS HONOUR MR. H. H. J. GOMPERTZ (PUISNE JUDGE).

ANOTHER USURY CASE. Sander Singh, an Indian watchman, sued

another watchman named Kaser Singh for \$100 due on a promissory note. Mr. Crowther Smith appeared for the plaintiff and Mr. Reader Harris, from the office of Messrs. Wilkinson and Grist, appeared for the defendant.

· Plaintiff stated that he lent the defendant \$100 last year and the latter agreed to pay three per cent. per month. He denied under cross-examina. tion that defendant came to him after the writ was served and offered to settle the case by paying \$30 interest on the principal and that plaintiff wanted \$50 because he wished \$20 for his solicitor's expenses. He also denied that defendant had paid \$70 on account, which had not been endorsed on the promissory note because plaintiff alleged at the time he had lost the key of the box in which he had locked the note and could not find it.

Defendant asserted that he had paid the \$30 on account and had paid \$30 into Court. Evidence was called in support of this.

His Lordship gave judgment for plaintiff. BUILDING COLLAPSE IN QUEEN'S

ROAD CENTRAL.

MANY NAUROW ESCAPES: NO FATALITIES.

One of Hongkong's alleged jerry built One of the largest irrigation projects that is structures tumbled in yesterday morning through the roof collapsing. The building. in question is situate at 142, Queen's Road inspected by Chief Irrigation Engineer Central, the ground floor thereof being a piecegoods shop, and the first and second stories family residences. According to the inmates angry scenes between M. Delcassé tion of over 25,000 hectares of rice lands in of the top floor the collapse was preceded by an Bulacan province. The estimated cost of the ominous creaking of the roof, which eventually entire project, should the present plans be fell in and carried most of the goods and chattels adhered to, will be about P.1,200,000. The water on the first and second floors through to the for the projected system will be drawn from the ground floor. Wonderful to relate, however, the inmates of all floors escaped unscathed being at the time of the collapse on portions of the first and second floors which remained firm fortunate in missing the falling debris.

A few years ago, we understand, the unstable condition of this building was reported upon and the Public Works. Department then ordered certain alterations. Recently, a party wall between Nos. 42 and 44 has been removed with the object of making the two shops into one large one. In place of the wall, iron pillars were used to support the first floor, and it may be that the removal of the wall mentioned weakened the buildings. It must be considered a very fortunate thing that the collapse occurred in such mild weather, for there can be little doubt had a typhoon overtaken the Colony the whole of the structure would have fallen in, and the death roll in such a case might have been considerable. Shortly after the collapse the Public Works Department proceeded to shore the buildings up, and repairs will be effected as speedily as possible.

AUTOMOBILES IN CHINA AND

Consul John H. Snodgrass, of Kobé, says Japan is unsuited for automobiles and carriages because of the narrowness of the city streets and the country roads, where the average track is only 33 ins. wide for jinrikishas; also because the driveways are limited to the cities, where the streets are continually filled with pedestrians and playing children, making it a hazardous undertaking to attempt driving a car through those sections. Besides, the Japanese do not take to automobiles. Until, therefore, there is a complete change in the construction of roadways and the widening of city streets, automobiles in Japan will be limited to a few enthusiasts of foreign proclivities. Furthermore, the tariff duty of 50 per cent. is almost prohibitive. Consul Roger S. Greene, of Dalny, believes that motor-car business may by worked up in that part of China. Most of the roads in the ci are now in good condition, having been newly macadamised. Outside of the city limits the roads are not suitable for motoring. Consul B. S .- Rairden, of Batavia, states that within will now proceed. The Governor and staff have the last two years sales of motor cars have rapidly increased in Batavia. The agent for an American car company reports that he sold over 100 cars in twenty months. The machine he handles is a small one, selling for about \$2,000. Minister Hamilton King, of Bangkok, reports that Siam offers one of the most promising fields for the development of a motor-car trade.

#### THE NAVAL PAGEANT ON-THE THAMES.

LONDON, July 21st.

Yesterday was a gala day in connection with the Naval Pageant on the Thames, the fleets being officially visited by the Lord Mayor and Corporation of the City of London and by the Lords of the Admiralty. They were received with thundering salutes.

The weather was glorious and the railways and steamboats were unable to cope with the traffic towards Southend, thousands being left be-

#### THE DEPRESSION IN THE COTTON TRADE.

London, July 21st.

The adoption of short time in the cotton trade is proceeding with remarkable unanimity.

Owing to the severe depression prolonged curtailment of the output will probably be necessary.

FRENCH CABINET RESIGNS.

ANGRY SCENES IN THE CHAMBER.

London, July 21st.

The French Cabinet has resigned as a result of a debate in the Chamber on the Navy.

The Government's defeat was complete surprise and resulted in and M. Clemenceau.

The former accused the Government policy of incoherence and impotency as regards the Navy.

M. Clemenceau, in an exceedingly angry reply, resented the presumption while those in the shop beneath were likewise of M. Delcassé, who, he said, led France to Algeciras, the greatest humiliation she had ever suffered.

The Deputies protesting, M. Clemenceau reaffirmed that the Algeciras Conference was a humiliation because the then Minister for War and Marine told him that the country was unready for war.

The Deputies, sympathising with M. Delcassé, rejected the vote of confidence by 212 votes to 176.

GERMANY AND THE UNITED STATES.

The North-German Gazette gives great prominence to the following Cologne Gazette

telegram from Washington :-President Taft and the State Department recognize that nothing but German friendliness has made possible the American success in regard to the Chinese railway loan, and express unfeigned pleasure about it. President received the German Ambassador, Count Bernstorff, in special audience. It is believed that the German attitude will affect the negotiations for a treaty of commerce.

OPIUM CULTIVATION IN YUNNAN.

Mr. A. Rose, the acting British Consul at Tangyuch, writes in his annual report :-Following the Imperial edicts from Peking. Viceregal proclamation was issued in July, 1908. at Yunnanfu, forbidding the cultivation of the poppy, and its terms were enforced by a rigin uprooting of the crop in such places as were sufficiently exposed to attract the notice of the inspecting officers. More than half the arable land of the district is reported to have been under poppy cultivation, producing crops which yielded from 300 to 400 per cent. profit. Farmers are now anxiously inquiring what can be produced on the vacant ground which will provide money to buy imports from abroad.

QUARANTINE ON VESSELS FROM HONGKONG.

The following reply to their recent representations has been received from the Government by the Hongkong Chamber of Com-

Colonial Secretary's Office,

7th July, 1909. SIR, - With reference to my letter No. '563- 909 of the 5th instant I am directed to inform you that I am in receipt of a telegram from the Colonial Secretary of the Straits Settlements dated the 6th instant expressing ment has decided to lay down eight regret that at present the quarantine against Hongkong at Singapore cannot be reduced. - I вш, &с.,

> C. CLEMENTI, for Colonial Secretary.

P. S .- Since writing above I have received enclosed telegram from His Britannic Majesty's Consul-General at Shanghai. The Secretary,

Chamber of Commerce.

Enclosure, Your telegram of 5th July. Quarantine consists of inspection of vessel lasting for in no case more than one hour.

Quarantine Authorities consider inadvisable to reduce this slight precaution as long as cases of plague reported at Hongking.

WARREN. The following reply was sent to the Govern-

Hongkong Chamber of Commerce.

- 8th July, 1909. Sin.-I have the honour to acknowledge with many thanks the receipt of your letter of 7th

instant (No. 1563/1909. My Committee learn therefrom that the Government of Singapore are unable to reduce, at present, the period of quarantine against Hongkong, and that with reference to Shanghai, His Britannic Majesty's Consul-General states, in his telegraphic reply, that the quarantine imposed at the port is only a matter

of an hour. My Committee desire me to ask you to be good enough to convey to His Excellency the Governor their appreciation of the prompt action taken by him .- I have, &c.,

- E. A. M. WILLIAMS Secretary.

Hop. Mr. A. M. Thomson. Colonial Secretary.

FOREIGNER KIDNAPPED.

Painful news from Toukin reached Saigon on the 6th inst., when word came that M. Voisin, a prominent French resident at Hanoi, had just been kidnapped by brigands, who had sent a message that they would strike off his head at the first shot fired at them. The Government retorted by holding several leading brigand prisoners as security for the life of the captive. The brigands belonged to the bands of De-Tham. a famous outlaw chieftain. A party of outlaws commanded by Carinh, one of De-Tham's some, waylaid M. Voisin who was passing in a ricksha. He offered a stout resistance and killed a brigand with a revolver shot. The brigands soon overpowered and beand him. The puller was bounded but escaped with his life. M. Veisin was carried off, his captors allowing him to write to the nearest official

Shortly afterwards, two other foreign residents passed by the scene of the outrage in a motor car, and had a narrow escape from capture. They were fired upon by the outlaws, The brigands and their captive soon disappeared. These events aroused a tremendous sengation at Hahoi, where, on the 6th inst., a public meeting was held to consider the situation. About 400 persons attended, and it was unanimously decided to establish a league for the protection of French interests. A. resolution was also passed calling upon the government to take sharp measures for the liberation of M. Voisin and for rooting out brigandage

The situation is indeed such as to arouse intense public indignation. Early this year, troops moved into the brigand country and hunted the cutlaws down. But soon the home government shrank from stern measures and would not hear of shooting the brigands down. It was decided to surround the outlaws and starve them out. The outlaws retreated into the wilds, and bided their time which soon came when the troops were withdrawn, and many outposts were evacuated. This was done to show that order had been restored in Upper Tonkin. Do Tham and his men have proved the contrary by sallying out of their fastnesses, and raiding the neighbourhood.—Strait Times.

UNITED SOUTH AFRICA.

CONGRATULATIONS FOR SIR MATTHEW

The referendum in Natal has resulted as

follow -For the Union, 11,121; against, 3,701. Every constituency polled a majority in favour of Union. The result of the referendum surprised even optimistic Unionists, who failed to realise that a noisy minority may bluff successfully until polling day. The campaign produced a marked change of public opinion, thanks to the convincing arguments of the Unionist Press and speakers. Thinking Natalians realised that the isolation of Natal meant a futile sacrifice of local interests and serious injury to British influence in the Union Parliament.

Congratulations, says a telegram, are pouring in upon Sir Matthew Nathan and the Ministers.

LATEST STEAMER MOVEMENTS

The Austrian Lloyd's str. Persia left Shanghai for this port on the 21st inst., and is due here on the 25th inst. a.m. The Glen Line str. Glenavon left Singapore

expected to arrive here on the 27th instant at The I.G.M. str. Yorck, which left here on the 16th inst. at 10 a.m., arrived at Singapore on

on the 21st instant afternoon, and may be

the 20th inst. at 6 p.m. The C.P.R. str. Monteagle arrived Nagasaki at 10 a.m. on the 21st inst., and left again at 8 p.m. same day for Kobe, where she is due to arrive at 6 a.m. on the 23rd inst.

WRITTEN SPECIALLY FOR THE "HONG-KONG DAILY PRESS. 1917-

June 18, 1909.

THE RECENT EARTHQUAKE. It will take a long time before the French-a most unfortunate people of late it must be admitted-recover from their earthquake shock, Everybody is frightened, and have cause to be, for one never knows how soon, or where, another calamity may happen. It is twenty years and more since an earthquake occurred in France, and it is to be hoped that at least a century will elapse before we are similarly visited again, The extent of the loss of life caused last week by the earthquake in the South of France is estimated at nearly a 100, while some 250 were injured. Enormous damage was done to property too, seven villages being ruined. The calamity occurred so suddenly last Friday night that it was thought it had not had very scaport.

to say, throughout eighteen departments, from Nice to Grenoble, from Grenoble to Yssingeaux, and from Yssingeaux to Castres and Perpignan. However, the department which bore the brunt of the shock was the Bouches du Rhône-of which Marseilles is the principal town. This department has a population of nearly three-quarters of a million, of which Marseilles counts for half a million. How Nimes, Cette, Toulon, Marseilles, Montpellier, and other big towns escaped is nothing short of miraculous; no doubt the solidity of their buildings had a great deal to do with it.

Four shocks were registered at the Marseilles Observatory, the first at a quarter-past nine, and the last at twenty minutes to ten. The first shock lasted two seconds; then there was a second's pause, followed by a second shock of four seconds. The third and fourth were very, slight Noteworthy is the curious fact that Nimes registered the first shock at nine o'clock, Cannes at a quarter-past nine, Toulon and Béziers at twenty minutes to ten, and Perpignan athalf-past nine-that is to say, nearly an hour and a half after the seismograph at Grenoble. Some 250 square miles have been affected in the Bouches du Rhône department. The scenes here of horror and destruction remind one of the recent Sicilian catastrophe. Rogues, for instance, which is a little place situated on the side of a hill, is no more; its complete destruction is attributed to being so close to the velcano of clearly proved that wherever a house had Beaulieu. One after another its houses crumbled a strong stone frame it withstood the shock away like a pack of cards, great masses of rock with ease. Thus, while dozens of houses built rolling down from the heights. Rognes had 11 of broken stone crumbled away at the first man, netify the fact by a roll of his drum. A baby of massive stone, did not show so much quite uninjured, while whole families perished. de Ville; the facade is quite uninjured, whereas One of the injured was a Mme. Raynaud, who was the interior, built of less resisting material, has awaiting her confinement, and who was half-buried been shaken to pieces. After all there is no beneath the débris together with her youngest evil without a good son. Her eldest daughter, with wonderful presence of mind, and who was practically uninjured hours, waiting for her to be rescued. The father on being extricated went raving mad. Several heart-breaking scenes are recorded from other parts. In some cases, the inhabitemerged. Fortunate were those who, panic. duty. The Minister, all being well, will leave come, rushed into the streets and sought refuge expects to reach Nancy at 1 p.m., on the ships in harbour; very few, however, had journey being made without a stop. as well as Le Correspondent (a monthly review) to be constructed in France; it is an imposingbances for June 18, 20, 21, 26, and 27

THE DIAMOND MAKER. M. Lemoine, the "diamond-maker" who is being retried on a charge of fraud on Sir Julius speed of 39 miles an hour. Wernher, of De Beers, has up to the present failed to prove that he can really produce diamonds. He still remains what he has beena noted swindler, and in spite of all his prodigious volubility will remain such. In the Tenth Chamber, where the hearing of the trial is conducted. Lemoine last Tuesday did his best to convince the judge and jury of his sincerity. His mysterious and nonsensical explanations enly caused the diamond experts present in the court to hold up their arms in comical despair. Such expressions as "atmospheric pressure" and "mercurial matter' were used by the audacious swindler with be wildering frequency. No wonder that nobody could understand a word he said. As those in court were getting disgusted and impatient with the proceedings, the court adjourned. Ever since there have been nothing but adjournments To conduct a case under such circumstances is only a waste of time. If Lemoine can prove that he is no swindler, why does he hesitate about declaring it. He knows perfectly well that he is no diamond-maker but in name, and that he richly deserves punishment. The sooner he is sentenced the better.

BALLOONING FOR LADIES.

Ballooning tends to become a greater craze each day with French ladies. St. Cloud has just been the scene of a balloon-race by ladies, the first of its kind to have ever taken place in called the "Stella" was formed at St. Cloud, and by way of inaugurating the happy meeting a

great fête was given in the magnificent historical park, one of the attractive features of which was a ladies' balloon-race. The six balloons which took part in the contest were all named after flowers. Rose, Bleuet (cornflowers), Paquerette (daisies), Pivoine (peonies), and Hortense. In addition to this, the rigging and the car of each balloon was most beautifully decorated with the flowers after which it was named. The lady aeronauts were also dressed in colours to match their respective flowers. The first to start was Mme. Surcouf, president of the Club, in Le Blouet, who proudly wore the pilot's badge, to which the two ascents in a balloon which she alone piloted gives her the right. As each balloon shot up to the strains of the "Marseillaise" the ladies showered bunches of flowers on the spectators below, the night being a most charming one as may be imagined. A number of motor-cars started February, 1908, for the season 1907-18. After in pursuit of the balloons with a view to capturing" them when they came to earth. The motorist who first succeeds in capturing disastrous consequences. Unfortunately, the the balloon which he followed was to receive a first accounts were greatly underrated. Four handsome medal from the fair passengers; each shocks were registered at Marseilles, and there car had at least three ladies. Five out of the was great terror among the population of the six balloons have come down safely. The sixth (17s. 13d.). Les Hortensias, in which Mme. Blériot and The trend of the seismic wave was from her husband, the well-known aviators, are pas-North-East to South-West. Its effects were sengers, has not yet been heard of. It was, over the South-East - that is however, their intention to stay as long re-arranging their hair and coiffure before reaching terra firma,

THE POSTAL WEECKERS. In spite of its vigilance the Government has not yet succeeded in apprehending or running the postal wreckers to ground. In Paris, there are fewer cases of postal outrages because the perpetrators have shifted their sphere of operations. The north of France is just now the place most frequented by the remnants of 50 sen (17s. 43d.) for Siongton the millers the strike. At Lille a number of burnt letters only get a net amount of 5 yen (10s. 21d.) as 3 have been found in a letter box. Between La Garenne and Colombes, a few miles outside Paris, nearly a score of telegraph not at the factory, the millers must pay about 2 wires have been cut, and 70 wire carried off. Platelayers on the Great Western Railway line perceiving two men engaged in the diabolical work gave chase, but were unable to catch the wreckers, who have but one aim in view, to tour the country and do as much mischief as they can.

THE EARTHQUAKE'S SALUTARY EFFECTS. its effects, as it has been the means of putting an end to jerry-building in France. catastrophe is certain to have an influence on the future construction of buildings all over the country. A new building plan is to be at once adopted throughout the devastated area. At St. Cannat it has been killed and 50 wounded, the whole population of shock, the house of the Templars, which dates the village is but a 1,000. As each victim was re- from the 13th century, did not suffer in the covered so did the garde-champétre, or rural police- least. Arches hundreds of years old, but built was taken out from beneath a kneading trough crack. The same is the case with the Hotel

MINISTER IN AN AIRSHIP.

The Minister of Public Works will establish herself, supported her mother's head for 18 a record to-morrow, when, as promised, he will pay a state visit to Nancy in an airship and inaugurate the very successful exhibition held in that town. The vessel in which M. Barthon will travel-" La Ville de Nancy-will be on ants were killed in bed, others while playing show during the whole time the exhibition billiards, others as they were leaving the remains open, after which the said airship will South Formesa has made trade very difficu Church, the sacred edifice collapsing as they be attached to the garrison for reconnaissance for stricken, and thinking their last moment had Paris to-morrow morning at seven c'clock, and time to do this. Last Friday's earthquake result of the trip is auxiously awaited. shocks were predicted in the Matin of June 6. "La Ville de Nancy." let it be said, is the latest on June 1, by the well known savant, M. de looking, cigar-shaped machine, 182ft. in length, Parville, who predicts further seismic distur- and 34 ft, in width. It has been built to carry nine persons; and is provided with a 120 h. p. motor, which drives a huge propeller 15 ft. in diameter. In fair weather it has an average

" TOUCHED" BY THE SUN.

A fashionably-dressed old gentleman wearing bunch of cornflowers in his buttonhole, walked into the exhibition of one hundred XVIIIth century portraits of women at the Tuileries Gardens yesterday, and, to the amazement of the other visitors, knelt down in front of Boucher's portrait of the Marquise de Pompadour. Taking the flowers from his coat, he offered them to the beautiful portrait, with the words: " At last, I have found you, darling Jeanne." The latter was the Marquise's name. Soon after the old gentleman's friends, who had been looking for him, hurried up, and led sugar crushing was commenced in December, the poor old man away gently, for whom the 1908. These mills are situated at Kyoshito rays of the sun had proved too fierce.

FOREIGN UNIVERSITIES IN CHINA

countries are contemplating the establishment | making four sets now in use in that district, of universities in China for the education of and 2.000 acres have already been ploughed Chinese youths the Board of Education intends for the next crop. A number of locomoto request the Ministers abroad to inform the tives have been imported from the United Ministers of Education of the countries to States for plantation purposes, and which they are respectively accredited that miles of permanent and portable railway special attention should be paid to the Chinese and trolley line have been laid during the language in all universities and colleges they have opened or are about to open in China. Unless the students pass in Chinese both at the plantation at Koshiken for a period of three periodical and final examinations they will not be recognized as first class men no matter how well they might have done in the other subjects. and that before students are admitted into those universities and colleges they should be first examined by the Board as to their knowledge France. Quite recently a ladies' balloon club of Chinese and character and then by the universities or colleges as to their knowledge of foreign languages, etc.—Shanghai Times,

CONSULAR REPORTS. THE SUGAR INDUSTRY IN

FORMOSA.

From the Report for the year 1908 on the trade of the Consular district of Tainan (South Formosa) by Mr. A. E. Wileman, H. B. M's. Consul, we take the following references to the sugar market and the factories :-

"The following table shows the quantity and value of raw sugar exported to Japan and China. and Hongkong respectively during 1908 :---

cwts. ... ... 1,186,699 £926,345 China and Hongkong 1,752 £ 1,580

1,188,451 £927,925 This shows an increase of 133,044 cwts. and

£193,344 on the figures for 1907. In the trade report for 907 the sugar market was reviewed up to the end of the month of the new consumption law tax came into force in February, 1908, the market declined from 8 yen per picul (1323 lbs.) for Siongtau towards the end of the month, but rose again on account of rumours of shortage of stock in Japan to 8 yen and closed in June, 1908, at 8 yen 40 sen November, 1909.

steady prices and is notable for the shortage hours), situated at Shinyeisho, was completed of low-grade sugars, the production having in December, 1908. The extension of the old been mainly of high-grade brown sugars mill situated at Ensuiko, which has been which realised 80 sen (1s. 7id.) per picul possible. Mirrors will be provided on the next higher than Siongtau, and at one time, owing in 24 hours to 600 tons, short, in 24 hours, has £180,000 last year. Then the two companies trip so as to give the ladies a chance of to the shortage of the latter quality, the difference was reduced to only 60 sen (1s. 23d.) per picul between the two grades. The higher grade is known as "Chut Lui," that is, "above grade." 'I he foundation of purchases is usually Siongton and so much more is paid for the "above grade" and so much less for the lower grades, hence the expression "above" meaning above the ordinary grades. Exporters did only a steady commission business and large profits were not made. The Chinese factories only did moderately well owing to the higher consumption tax paid. At an average price of 8 yen ven (6s: 12d.) must be deducted for the tax and 50 sen is. Old.) for transportation expenses to the merchants' godowns. From the 5 yen per picul van 30 sen (4s. 8id.) per picul for expenses of been increased by about 5,000 acres, and it is manufacturing, leaving 2 yen 70 sen (5s. 6d.) for themselves and the farmers, the latter duction will be nearly 100,000 piculs (5,952 him to the Queen of Holland of the Order of getting from 2 yen 39 sen (4s. 10hd.) to 2 yen (tons). 50 sen (5s. 12d.) per picul for their cane.

The 1908-09 crop opened in November 1908, owing to rumours of greatly decreased quantities of brown sugars, caused by the The earthquake has been salutary in some of starting of the many new centrifugal factories which absorbed the cane hitherto supplied to centrifugal sugars were also sold ahead by the various factories at prices ranging from 12 yen 50 sen (11. 5s. 61d.) per picul to 13 yen (11. 6s. 61d.) per picul c.f.i. Yokohams, or i yen (2s. Old.) less ex factory, the factory paying the consumption tax. It was at first estimated that the crop, which is a record one, would yield only 600,0 0 piculs (35,714 tons) of brown sugars and 900,000 piculs (53.571 tons) of centrifugals, and as from this. 600,000 piculs, about 300,000 piculs (17,857 tons) have to be deducted for local consumption, it will be readily understood that there was some cause for the apprehension which caused the rise in price. However, when it was found that although all the new mills were practically finished and had started work in December, they could not work to their full capacity owing ito the occurrence of minor troubles incidental the running of new machinery, and consquently most of the mills were obliged to give up part of their cane to the Chinese farmers to crush in their brown factories, prices receded to 8 yea 50 sen (17s 41d.) per picul, at which they have remained steady up to the middle of March. 1909 The revised estimates now give an expected expertation of 600,000 piculs (35,714 tons) brown sugar and 700,000 (41,666 tons) of centrifugals, leaving 300,000 piculs (7,857 tons) of brown for local consumption out of a total estimated crop of 1,600,000 piculs (95,238 tons). The advent of the two principal Japanese importers of sugar the foreign merchant for crop (1908-09), as these two firms were the principal to whom the foreign firms used to sell their holdings. As these two firms are in keen competition with each other margins have been so cut down that the foreign firms could hardly enter into competition with them even for can prophecy the days of the foreign commission merchant would appear to be numbered

making their own shipments, and so far as one The two principal products handled by the foreign merchants have of recent years been confined to sugar and rice, but as these two Japanese firms, as well as a number of less important Japanese firms, all handle both products and appear to be willing to out-advance the foreigners as well as outbid them in price, business for the foreigners will either have to be speculative or confined to imports, which again have dwindled to very limited proportions and are confined to only a few articles. Of course there will be machinery and accessories usually required by large sugar factories, and the foreign firms will have to reorganise their staffs in order to cope with the new trade whilst giving up the old one.

SUGAR FACTORIES.

The following notes concerning the principal sugar factories in South Formosa show the

progress made during 1908 :-Taiwan Seito Kaisha (Taiwan Sugar Company) .- This company has duly completed the three new mills in course of construction during 1908, and referred to in the report for 1907, and (460 tons, short, in 24 hours), Koshiken (1,000 tons, short, in 23 hours) and Ako (1,200 tons, short, in 23 hours). In 1908 the company purchased two large sets of steam ploughing tackle composed of four engines of 24 horse-power In view of the fact that several foreign each for use in the Koshiken district, thus year: 400 Japanese immigrants have also been engaged from Japan for work on the

Dai Nippon Seito Kaisha (Dai Nippon Sugar Company) .- The mill in course of construction for this company at Gokenseki, near Tarimu (1,200 tous, in 23 hours), alluded to in the report for 1907, has been duly completed and - commenced crushing operations in London and 13 degs. warmer than Paris, and December, 1908.

Tayo Seito Kolsha.—The mill situated at Suikutsuto, near Kagi (1.000 tons, long, in 22 hours), alluded to in the report for 1907, was completed and commenced crushing in December, 1908. The estimated crop of cane for the season is about 88,000 tons, of which 18,000 tons have already been crushed (February, 1909), the sugar obtained amounting Winchester House, London, Sir Marcus Samuel, to about 1,800 tons. The permanent railway line of 47 miles and all bridges are now completed. The rolling-stock consists fore you of the " Shell" Transport and Tradof 300 wagons; and at present five locomotives are employed, one of 50 horse-power and four ing Company. Limited, for the year 1908 will, of 40 horse-power. Another locomotive and 50 additional wagons will shortly arrive. water supply for the factory is obtained from the River Hatsoke, from whence it will be pumped to the reservoirs by two electrically driven centrifugal pumps, each cap- to liquidate outstanding liabilities, and able of discharging 30,000 gallons of water to provide the Shell Company's proporper hour. At present an oil engine of tion of liquid capital in the arrange-20 horse-power and two 6-inch centrifugal ment with the Royal Dutch Company, do pumps are temporarily employed.

Meiji Seito Kaisha (Meiji Sugar Company). -The mill near Banshiden railway station, in course of construction during 1908 and alluded to in the report for 1907, was completed in November, 1908. It is expected to produce 35 sen (17s. 03d.) early in March to 8 yen (16s. 4d.) 110,000 piculs (6,547 tons) of sugar during the that, in the opinion of your directors, the

The second mill owned by this company in course of erection at Sumtau, near Cagi (750 90 sen (18s, 2) per picul in the middle of April tons in 22 hours), will not be completed until

Ensuiko Seisha.—The mill in course The 1907-08 crop has been one of fairly construction during 1908 (850 tons, short, in 24 enlarged from a capacity of 400 tons, short, Saxon Petroleum Company, Limited, as against

also been duly completed. Company, situated at San-kan-ten. This British company was registered in London on January 18, 1908, with a capital of 80,0001. divided into 60,0001. of 6 per cent. cumulative preference shares and 20,000/. ordinary shares. The new capital obtained has 700 tons of cane per day, and the new machinery was completed on February 3, 1909, although to time by contributions from their profits, and crushing was started with the old plant about | the credit stood at the end of 1908 at the subthe middle of December, 1308. The factory is expected to produce this crop (1908-09), about 55,000 piculs (3,273-tons) of sugar as compared with 14,714 piculs (875 tons) for 1907-08 crop. On account of the enlargement of the plant before mentioned, the cane buying district has expected that in the crop for 1909-10 the pro-

river close by and no pumps are used, the water enjoy it for very many years to come. He has at 8 yen 60 sen (17s. 63d.) per picul and rapidly | being led by a pipe to the well near the condenrose to 9 yen 60 sen (19s. 7d.) in December ser pumps, a great advantage where a large the management Messrs. Hugo London, A. J. quantity of water is required for the condensers. The trolley line is 22 miles in length, with a rolling-stock of 265 cars, each taking 23 tone of cane. The gauge the brown sugar mills. Large quantities of is 24 inches instead of 30 inches, which is the gauge adopted by the majority of Formosan factories. Three locomotives have been purchased to arrive in time for the 1909-10 crop. It may be mentioned that the facilities for transportion are most favourable. The mill is situated in such a position relative to the cane that there is a gradual gradient in its favour so that not much power is necessary to transport the case to the mill. The transport of sugar to a nping for export is effected by the river and costs only 5 sen (11d.) per bag. The total cane area is now over 10,000 acres, and, judging from the figures already quoted, the company has already made great progress in bringing land under cultivaion. It is calculated that the district worked by this company will yield in three years' time 10,000 tons of sugar. The price obtained from the sugar is 13 yen (11. 6s. 6id.) per picul, only Because the supply of crude is in excess of the one grade of sugar being manufactured. periments are being conducted with a view to making brown sugar from the residual melasses, and it has been proved that this can he done. but some modification of the present experiment plant is necessary and will be installed later on Hokuto Sugar Mill.-Owned by Bain and Company, a British firm. This was originally a small 1: 0 ton brown sugar mill, and was intended to enlarge and convert it into a 240-ton centrifugal mill during 1909 The Sugar Bureau, however, have arranged for the incorporation of the district belonging to this mill within the district of a large new mill of from 700 to 800 tons crushing capacity, which is to be erected by a Formosan-Chinese financier. Compensation will be paid to the British firm for the machinery already installed, and the Sugar Bureau has allotted to them another district near Takow in exchange. In this new district the British firm will install the new machinery which has been purchased for Hokuto and will also purchase the necessary additional machinery required for a mill crushing 300 tons of cane per 22 hours to produce centrifugal sugar. This new mill at Takow will be completed by November, 1909, in time for the 1909-10

#### AN "ARCTIC SUMMER" IN ENGLAND.

crop, which is estimated to produce 30,000 picula

. London paper of the 25th ult. has the following reference to the weather in Europe :-The cold and rain of June continue to augment. Such temperature has never before been experienced at this time of the year as far as London and the east of England are concerned The rainfall during the present month is already well over the average for June. The rain yesterday interfered with the celebrations of the King's official birthday and

many other important events. The Trooping of the Colour was abandoned. The review on Laffan's Plain was cancelled. Many parades of troops could not take place. Cricket was out of the question. Lawn tennis at Wimbledon had to be aban-

On the Continent the conditions are even worse. Snow is falling in France. The heatwave which has caused such intense suffering in America seems to be abating, and

yesterday cheers were raised when rain fall. One of the happiest men in London yesterday was in the office of the British Rainfall Association at Camden-square. \ Outside, the lawn was covered with strange rain and wind gauges. and instruments that recorded to the last fraction of an inch June's misdeeds.

"We are already above the average for the month of June," observed an official. "The average rainfall for the Junes of thirty

years is 2.09 inches, and we have beaten that by near'y half an inch already. "The temperature thinking that, adding all these items together, years, and more will be engaged for the planta- has been unusually low for June, too. While last month we recorded the largest amount of sunshine in one month for nine years-276.1 hours—this month will be a dismal record."

On June 12th the warmest place in North West Europe was Ircland, which, with a temperature of 60 degs., was 16 degs, warmer than only three degrees less than Nice.

COMPANY MEETING.

"SHELL" TRANSPORT AND TRAD-ING COMPANY, LIMITED.

The annual general meeting of the members of this company was held on the 22nd ult. at Bart., presiding.

The CHAIRMAN said :- The accounts which I

now have the pleasure of placing formally be-

I am sure, have proved very satisfactory reading

to the shareholders. Including the amount

brought forward the net profits amount to £710,551. The large apppropriations which we made last year to reserve account, in order not fall as a charge on the revenue for 1908. We thus have a very much larger sum at our disposal for distribution, and leaving the sum of £192,994 to be carried forward. That this sum should be so much in excess of that carried forward last year is owing to the fact amounts appropriated to depreciation by the intermediate companies is so large as to render it unnecessary for the parent companies to make further provision this year in this respect. An amount of £493,000 has been put aside for depreciation in the Bataafsche Petroleum Mantschappij (which now includes the accounts of the Nederlandsch Indische Industrie en Handel Maatschappij), as against £293,00) last year, whilst £205,000 has been set aside in the Anglocarry forward an undivided sum of £81.680. Formesan Sugar and Development Company, With reference to the balance sheet of the Bataformerly known as the Hing-Hoat Sugar afsche Petroleum Maatschappij I ought perhaps to make it clear that all expenditure incurred in drilling exploration, and geological research, is debited to working expenses (being in addition to the amounts already stated), and is thus written off before arriving at net profits-Since the Bataafsche took over the insurances been utilised to enlarge the plant from 350 to they have, happily, had no serious calls upon the fund, which has been supplemented from time stantial sum of £283,236. Our relations with our Dutch colleagues continue on the most friendly and intimate basis, and I have again to congratulate our shareholders on the capable, manner in which the business is managed. My friend, Mr. Deterding, the managing director, has recently received from the Dutch Government -- in the conferring upon the Lion-a distinction he has very richly The water supply is obtained by damming the deserved, and I am sure we all hope he will again been ably seconded by his colleagues in

> t ohen Stuart, and R. Waley Cohen. The fact that " Shell " spirit has become a household word for petrol might lead our shareholders to suppose that our profits unduly depended upon this article, but that is not the case. Our total trade in petroleum is an enormous one, and that petrol is a comparatively small part of it. The progress of the trade in the United Kingdom has been eminently satisfactory. The sale of Shell spirit in 1908 showed a large increase over that of 1907. I am pleased to record the fact that the sales for 1909; un todate, again show a very gratifying advance us compared with 19 8. Attempts have been made to wrest this trade from us by the offering of inducements which bore their own condemnation, and which were speedily withdrawn. So long as Shell spirit remains of the magnificent quality that it is, so long am I sure that we shall hold the trade. Sumatra crude petroleum contains a very large quantity of homogeneous petrol: that is, the first run of the still. This may be 'called the very heart of petroleum. demand, the Chell Company are able to give their customers only the finest fractions contained in the crude oil. It is not necessary for them to either distil or retreat their petrol with acid because each one of these processes necessarily detracts from the very quality which constitutes the greatest value of petrol.

Our geological surveys have, I am happy to tell you, resulted in discovering other fields which promise to be of enormous value. In this connection I refer particularly to new fields in Borneo, where our geologists are quite confident we have an anticlinal which promises to exceed in area and productivity the Sanga Sanga fields The first boring has already reached a depth of about 376 ft. Similar success has attended our efforts in Sumatra, and a new field has been located, of which great hopes are entertained Our production of crude amounted last year to 1,2 4,132 tons. Through the company's holdings in the Astra Company of Roumania, this company have a large participation in what promises to be a very valuable field. The present weekly production is 2,800 tons. High hopes are also entertained of success in another territory in Roumania, in which we and our associates hold nearly the entire anticlinal. The amount invested by the joint companies is £100, 00, and the management is in the hands of the Batasische directors. Although the average return from our kerosene is lower up to this period, compared with last year, owing to reckless and useless competition by opponents in certain markets, your directors, looking at the genera position, feel themselves justified in distribut ing an interim dividend at the rate of 10 per cont. per annum for the half-year account of 1909. We should be in a very happy position if all our competitors sold their products at the equivalent of the price which they exact from their home consumers. Our older shareholders will remember that we have have similar attacks upon us before, but the fact that we have accumulated the magnificent reserves that we have should satisfy opponents that if war is forced upon us we have very little to fear. and we shall prove very tough customers. can confidently state that no crude oil in the world is produced and transported to neighbouring Eastern markets so cheaply as ours. Mr. Evelym Seymour said:-I have endeavour

ed to read between the lines of the accounts submitted to us, and I should be much obliged if you would be good enough to assure me that I have not been dreaming, and that I have interpreted you correctly in the following facts :- I understand that the combined company has distributed or is about to distribute, in respect of the year 1908 no less than £1,600,000; secondly, that they have obliged us by paying our income tax for us; thirdly, that they have written off in various ways and carried forward no less than £800,000; and last, but by no means least, that out of the year's profits they have defraved the whole cost of boring operations and geological surveys. Am I right in the real profit from the combined concerns in 1908 amounts to the colossal figure of £2,500,000? Further, I should like to ask, if I am in order in doing so, whether it is not the case that had our best interests not been studied by the able board of directors who represent us it would have been quite possible so to rearrange the figures that the shareholders of the "Shell Transport and Trading Company would have I treating the Supreme Court cases in this

And Neck by Chronic Running Eczema—Arms Strapped to Sides Because of Itching-No Help at Hospital —Confined to House and Could Not Work for Four Months Feared There was No Cure.

#### PERFECT RECOVERY IS DUE TO COTICURA

" I was seized with chronic eczema. The disease broke out on my face and spread to my body, arms and scalp. After attending a hospital it gradually got worse and on my face it turned to running eczema. After a fortnight of hospital treatment, I had hardly any skin left on my face and neck and it was so itchy that I had to be strapped with my arms to my side at night. I was a rough rash and itchy and sore on my body and arms, but it was running all day long on my face, neck and scalp. I began to think that I should never get well again, but I am now well again and have all my hair on my head thanks to Cuticura. After the first set. consisting of Cuticura Scap, Cuticura Ointment and Cutioura Pills, I began to find the benefit and after the second set the disease had almost disappeared. I can safely recommend the Cuticura Remedies to all who suffer from eczema in any shape or form. I never had the pleasure of leaving the house for over six weeks and I had to leave my employment and was out of work for over four months. D. Hyde, 389, Stony Hanton Rd., Coventry, England, Dec. 2, 1908."

For red, rough and chapped hands, dry. fissured, itching, burning palms, with painful finger ends and shapoless nails. as well as for tired, itching, aching feet, warm baths with Cuticura Soap and gentle applications of Cuticura Ointment are simply wonderful.

Cuticura Remedies are sold wherever the British Fing floats. Depots: London, 27, Charterhouse Sq.; Paris, 5, Rue de la Paix; Australia, R. Towns & Co., Sydney; India, B. K. Paul, Calcutta; So. Africa. Lennon, Lid., Cape Town, etc.; U.S.A., Potter Drug & Chem. Corp., Sole Props., Boston. Post-free from London depot, liberal sample of Cutleurs and 52-page book on skin and scalp.

received a dividend not of 20 per cent; but of

The CHAIRMAN: - Yes, Mr. Seymour is correct. The profits would have amounted to about £2,500,000. It is obvious that we might have naid a larger dividend if we had not been conservative in our policy. At a subsequent extraordinary general meet-

ing the following resolution was adopted :-" That the articles of association of the company be altered by cancelling Article 16a, and the addition thereto inserted by one of the special resolutions which were passed on Jan. 24, 1902. and confirmed on Feb. 10, 1902" The Chairman, in moving its adoption, said it was found necessary in converting some of these bearer into ordinary shares to split them and this was simply to facilitate that process.

#### THE JURY SYSTEM:

The jury system in the East is provoking discussion at present in the Straits and in Ceylon. After occupying the time of the Assize Court at Singapore for nearly two days, the trial of three Japanese charged with extortion and terrorising the inhabitants of a house in Dhoby Ghant had to be commenced afresh. There was no alternative before the Court. This annoying position was occasioned by the stupidity of a Chinese juror-who it was accidentally discovered had not understood what had been going on. In other words, he had acted the part of dummy whilst the Court wrestled for two days with a case which had been conducted entirely through the trying mazes of Japanese interpretation. The discovery was made in this wise. The particular Chinaman had arrived late on the previous morning and had been fined : 20 therefor. At tiffin time, when the court rose to refresh itself, the juryman mentioned the fine to the Sheriff, Mr. Rhodes, and wished to be let off. Then it was discovered that the juryman understood only a very little English. This was communicated to the Deputy Public Prosecutor, and after the accused had finally put their case before the jury, and as his Lordship was about to commence summing up, Mr. Rhodes remarked that he thought it right that the question of this juryman's ignorance of English should be mentioned at this point. If it were the case that the man had not understood what had been said, the jury would have to be discharged, a fresh one empanelled, and a new trial undertaken. A Ceylon lawyer commenting on the remarks

of the Ceylon judge who said that he would never again allow a Tamil jury to try a case that came before him, advocates the abolition of the jury system in Ceylon. He urges that the presiding judge should judge as to the guilt or the innocence of the prisoner, and goes on to say: The judge would thus be in a far more real sense the judge; and specialised as his training is, the quality of his verdict and the guilt or innocence of the prisoner ought to be at least as good as that of the seven men called from their daily avocations to a task which is seldom or never in their line. The proviso, too, that the prisoner should have the right of appeal to the full court-and still, of course, to the Governor as well-would completely safeguard matters. It should be remembered that trial by jury was originated in order that the rights or wrongs of an accused man's case might be tried by his peers; whereas in Ceylon the jury is composed almost invariably of anything but peers of the prisoner in the dock. There is not, therefore, the same objection to the advocacy of abolition of the jury system in an eastern colony as in the old country. There is beside. the force of the argument that jurymen are often ignorant of the conditions of life of the prisoner, the fact that an immense amount of time is wasted: the time of the jurymen and that of the whole Court, in long addresses for and against the prisoner, and the cost of the batta of witnesses, and so on .. This is so much argument towards a more economical and certainly not less effective method of

#### TENDERS FOR REVENUE FARMS.

hereunder. NORTH BORNEO.

Subject to the above reservation it is hereby notified that tenders will be received at the Office of the Secretary to the Governor, Sandakan, up to 12 o'clock noon, on the 1st day of October, 1909, for the purchase of the exclusive privileges of the Farms described below for a period of one, two or three years commencing on the 1st January, 1910.

2. Any person either for himself alone or for himself and others, may, either in person or by agent duly accredited in writing, on any date

All tenders so made will (except at the express wish of the tenderers to the contrary) be received and treated by the Government as strictly confidential.

On receiving any such tender, Government reserves to itself the right of deciding whether it shall be considered or not. If Government decides not to consider the tender, it will be returned to the tenderer under

sealed cover. All tenders accepted for consideration by Government will be, in the first instance, retained by Government for further considerstion with the tenders handed in on 1st October. 1909, which will be opened at noon on that date.

selected. 3. The Farms, above referred to, are :-BRITISH NORTH BORNEO .- OPIUM. SPIRIT, GAMBLING and PAWNDROKING, as follows :-

(a) in one concession for the whole State. Districts of the State, the limits named including the interior territory watered by the rivers within the limits given respectively :-(i) SANDAKAN DISTRICT—the Territory bounded on the one side by the true right watershed of the Kinabatangan River and on the other by the true left watershed of the

Paitan river. on the one side by the true left watershed of the | taken in hand this spring. Paitan River and on the other by the true right watershed of the Pindasan River.

(iii) WEST COAST DISTRICT—the Territory bounded on the one side by the true right watershed of the Pindasan River and on the other by the Northern Boundary of Province Clarke.

(iv) EAST COAST DISTRICT—the Territory bounded on the one side by the true right watershed of the Kinabatangan River and on the other by the Dutch Boundary on the South at Broershoek point.

(v) PROVINCE CLARKE -being the Territory between Batu-Batu and the Lawas Northern watershed. 4. The attention of those desirous of tendering

is drawn to the following terms:---(a) The tenderer must state in his tender the annual sum offered for the Farm rent for the three years 1910, 1911 and 1912; a different sum

may be offered for the first, second and third years respectively. The tenderer must also clearly state the proportion of the amount of the Rent to be allotted to each separate Farm.

accept the highest or any tender, and reserves to itself the right of making any arrangements it may deem advisable as regards the letting of chang prefecture, with varying success, though the Farms.

English, and in the vernacular language of the grant of Tis. 1,500 (about £200) having again tenderer, the names, residences and occupations | been made in 1908 from the Provincial Excheof the persons tendering, and similar information | quer for the purchase of American seeds. regarding any security or any partner that the tenderer wishes to propose. (d) The successful tenderer will be called upon

to enter a contract under the provisions of the Proclamations named in Schedule A appended (d) Copies of the the Forms of Contracts for the Farms may be seen on application at the Offices of the said SECRETARY, at Bandakan, or of Messrs. GUTHRIE & Co., at Singapore, or of Messrs. GIBB, LIVINGSTON & Co., at Hongkong.

(f) The successful tenderer will be required to deposit with the Finance Commissioner, Sandakan, Security to the value of three months' Farm rent by means of a deposit of money to the amount of one month's Farm rent, and of title deeds to the amount of two months' Farm rent. (g) The retail rates for Chandu fixed by Government for the Opium Farm fro 1910,

1911 and 1912 are those specified below :-Per tahil... \$ 2.40 . 5 hun packet ...

(h) The Opium Farmer is responsible for seeing that Chandu is not sold by retail at the eliminated. A German loan of m.8:0.000 (about Opium Farm or at the Opium shops at prices £39,300) has, however, recently been contracted higher than those fixed by Government and for the purchase of rolling-stock. In Lanshanand named above (g.)

their own prices for supplying the Opium and October and March, at which latter date the Spirit Farm Shops wholesale with Chandu and | water floods their shafts and they are compelled

period, the Opium and Spirit Farmers will be in hand by local capitalists intent upon reorganisentitled to the use of a Trade-mark (to be ing and developing it, capital to the amount of approved by Government) to be affixed to any about \$18,000 (over £1,500) having Opium or Chandu prepared by them, and to any subscribed. Should the enterprise prosper, it is vessel containing Spirits for sale.

(i) As soon as the new Farmers have been appointed by the Governor, they will be required | present 30 shafts, old and new. of which two are to submit in writing to the Secretary to the being profitably worked. Governor a Schedule showing full particulars of the Title Deeds they purpose to deposit with the Government as security for the said two months' Farm rent. If these are considered satisfactory, the new Farmers will be required to execute a mortgage of the property

to the Government as provided for by law. (k) The Farmer for the West Coast may be required to rent certain Farm buildings at

(1) The following Proclamations govern the conduct of the Farms in B. N. Borneo viz :-SCHEDULE A. The Opium Proclamation No. 16 of 1901 as

amended by No. 7 of 1904. The Liquors Proclamation No. 17 of 1901. The Pawnbrokers Proclamation No. 14 of 1902, as amended by No. 1 of 1903, and No. 3 of 1906.

The Gambling Proclamation No. 8 of 1891.

Hongkong, 3rd May, 1909.

#### TRADE IN SHANTUNG.

The following passages are taken from report by Acting Consul Giles on the trade of Shantong in 1908:-The partial failure of the crops reacted very

severely on trade, which suffered further from TENDERS are invited for the Lease of the fall in the price of silver, combined with Revenue Farms in the State of North the appreciation of the latter vis-a-vis of the Borneo from the 1st January, 1910, as set out copper coinage; the silver tael fetched at one time no less than 3,100 cash in Wei-hsien, and REVENUE FARMS IN THE STATE OF 3,800 cash in I-hsien, and it was correspondingly high in other parts of the province of 1. In making arrangements for the leasing of Shantung. This grievously affected the poor the Farms for the next Farm period of 1910, people, who make all their purchases in copper. 1911 and 1912, the Government reserves to itself? To add to their distress, money was very tight. the right of vesting the Farms (as provided in everywhere, and prices rose considerably; conthe Proclamations concerned as named in sequently, the bulk of the population experienced Schedule A appended) in any person, by public the greatest difficulty in making both ends or private sale as may be thought fit.

#### PINANCIAL CRISIS.

· Numbers of firms in the chief trade marts of a surprise test of the preparedness of the troops the province, finding themselves unable to do a of the Aldershot command for immediate service, profitable business, shut down. Over 90 are said to have been closed in Wei-hsein alone, and some 190 in Choutsun; a similar state of affairs prevailed in the smaller trade centres.

The crisis severely affected the native banks, barracks ready to go anywhere. Each unit five or six of which in Wei-hsien, where the paraded fully mobilised, with their first and monetary stringency was most keenly felt, went second line transport equipped for instant bankrupt. The biggest failure was that of a service carrying food and fodder for three prior to the said noon of the 1st October next, wealthy and powerful establishment, which dealt days, and millions of rounds of rifle ammunition. submit to the said Secretary at Sandakan, any in piece-goods, cotton yarn, provisions and Each gun had its full wagon of shells behind tender he may think fit for all or any of the cloths, and had widespread ramifications it. Nor was this all, for so complete was the Farms, provided such tender is in conformity throughout the province. The liabilities organisation controlling the work that the with the terms of tendering hereinafter set out amounted to nearly \$250,000 (about £41,600): necessary machinery was set in motion to reand fulfils all the conditions required of the considerable difficulty was experienced in realising what assets there were; a settlement had not been effected at the end of March last, reservists. No warning of what was coming nor is one likely to be for some time to come. Meanwhile confidence has not yet been restored, and trade remains stagnant. The prevailing depression made itself felt at Yang-chino-kon on the Gulf of Chihll, hitherto a very flourishing port. The imports and exports, with the exception of duty-free grain; fell off enormously in the latter half of the year, and the Customs receipts diminished accordingly.

TIENTSIN-PUKOW RAILWAY.

The preliminary arrangements in connection with the Tientsin-Pukow Railway progressed steadily during 1908. Not only have the after which the successful tenderer will be surveys been completed in the province of Shantung but nearly all the land required between Chinan and the Shantung Chilli border has been thrown up between Chinan and Lok'ou on the Yellow River. on the most important piece of engineering on the line—the Yellow River bridge—which is in (b) in one concession for any of the following the hands of the Nurnberger Bridge Building Company, is also being commenced. The total length of the bridge with approaches will be about 2 kiloms.; in the river bed itself there will be four iron supports, making five spans across the river; in addition to this there are to be 17 culverts of an average width of 70 to 80 metres. South of thinan, work has not yet begun, but the engineers have been carefully (ii) KUDAT DISTRICT—the Territory bounded surveying the line of route, and work is to be

PROPOSED RAILWAY FROM WEI-HSIEN

TO CHEFOO. The project for linking up Wei-hsien on the thing very serious had occurred to call them China-Tsingtau line with Chefco by rail has out in such a state of preparedness for war. been definitely sanctioned, the gentry and merchants of the districts to be traversed having been permitted to mise funds for the purpose. It was originally intended that the line should be built exclusively by Chinese labour with Chinese capital, but owing to the difficulty of getting funds the question of a foreign loan has recently been raised. A start is to be made been taken in hand. The construction of such | ment:a line, says Mr. Giles, would undoubtedly be a the lack of railway communication.

COTTON GROWING EXPERIMENTS. Cotton is largely grown in the province Shantong, and the authorities have recenti turned their attention to the development (b) The Government does not bind itself to this industry. Experiments have been made during the past two years with five varieties of American cotton seeds, especially in the Tungthe results are said to be satisfactory on the

(c) Each tenderer should specify in full, in | whole. The experiments are to be continued, a SPINNING AND WEAVING.

In addition to those already established in Chi-mo-hsien, not far from Tsington. Gins, have been purchased abroad, and 20 apprentices have been specially indentured to study foreign manufacturing methods. The raw material is to be drawn exclusively from the province.

COAL MINING. As regards native-worked coal mines after those in the Poshan Valley, those in the I-chou profecture are the most important in the province of Shantung The Chunghsing Company, previously known as the German-Chinese Mining company, with a capital of \$2,000,000 (about £167,000) which works coal mines in I-hsien, is the principal concern. Its mines produce about 300 tons of coal daily. The German capital invested only amounts to about \$42,000 altogether, and it is to be gradually repaid until the capital is solely Chinese; the name of the company was also altered during the past year, the word German being hsien the natives also do a considerable amount The Opium and Spirit Farmers may fix of primitive coal mining every year between to cease operations for lack of pumping (2) During the continuance of the Farm machinery. The industry has now been taken proposed later on to purchase proper machinery and to extend operations further. There are at

STRAW BRAID.

Mr. R. H. Eckford, Consular Agent at Tsingtau, reporting on the trade of that district, in 1908 notes that Shantung straw has been exported somewhat freely, its destination being Ningpo, where it is made up into hats. The continuance of this trade depends on the vagaries of fashion. It is reported that the Chefoo native merchants have organised a syndicate for the production of plait from straw grown in that neighbourhood, and that it is proposed to bring some families from Pingta to-day is as follows:--and Shaho to teach plaiting. Samples have been shown at Tsingtan, and the qualities appear to be satisfactory. No foreigners are to be allowed to participate.

The Indo-China Steam Navigation Company carried on a regular service between Tsingtan and Shanghai during 1908, and the Peninsular and to fair.

Oriental Steam Navigation Company inanguroriental Steam Navigation Company man, and a regular monthly service, the steame. HOW calling at Tsington en route from Japan to Shaughal, and proceeding thence via the usual ports to London; this afforded merchants the immense advantage of getting their goods forwarded to European ports without transhipment, thus saving much expense and damage. It need scarcely be said that this facility is mucy appreciated and will tend to the development of Tsington.

FOR INSTANT SERVICE.

ALDERSHOT COMMAND PROVES ITS READINESS

FUR WAR. Mobilisation for instant service was the peremptory order that flashed round by telephone to the barracks at Aldershot recently. It was and as events proved, the men came through the ordeal triumphantly. Well within six hours of the alarm being sounded nearly 20,000 men of all arms marched out of ceive, equip, and send on as first reinforcements as many more men drawn from the roll of preceded the test. The troops were engaged in their ordinary avocations when the alarm was sounded at headquarters, and was taken up all over the garrison Some of the regiments were already in the field engaged in training and musketry work, and they were hurriedly brought in by gallopers. Wagons were trundled out and loaded with the necessary stores. Rations for three days, ammunition, field bandages, and identity discs were issued to the mon. Tool chests were packed, water carts filled, and each and every man fell into his allotted place ready to resist the invaders, who, it was believed, had landed, The Grandiers reported every man present on parade, and ready in three hours after the order was received, the battalion being completed with

packed wagons, which even contained firewood for the cooks. Within four hours long columns of men, each with his field kit on his back and his pouches filled with ammunition, were filing out on to Laffans Plain and the Long Valley. Fifteen hundred cavalry and a hundred guns made for the Long Valley ready for anything. It was the biggest muster for instant war Aldershot has ever seen. and so quickly was it all done that one wondered at the entire absence of noise and confusion. Well might General Smith Dorrien express his entire satisfaction with the way in which the work was done. The General rode round each brigade and saw that it was complete before dismissing it to barracks - much to the surprise of the men, who began to conjecture that some

#### DR. OKADA ON CHINESE CODE.

Dr. Okada, legal adviser of the Chineso Government, who returned to Tokyo on the with the eastern section of the line from Chefoo | 3rd inst. on furlough, interviewed by a press to Hung-heien, and the necessary surveys have representative, has made the following state-

China is now busily engaged in the arrangegreat boon to Chefoo, which has long been ment preparatory to the introduction of conhampered in its competition with Tsington by stitutional government. The Prince Regent is paying attention with great earnestness to the establishment of the new regime and the provincial governors, too, are eagerly taking to the investigation of the subject. The Prince Regent is also making a close investigation about the unification monetary system. Of the latter subject Mr.Chien Cheng-Chih, of the Ministry of Finance, is in charge of the investigation work. I know nothing about the condition of the making of the Chinese Imperial Constitution, because I am not connected with the work. As regards the code compilation work I am connected with, the driminal code has been already completed and these concerned are at present examining the opinious sent by the provincial governors. The judiciary law has also been completed and been submitted to the considerthe province of Shantung, a new cotton spinning ation of the constitution compilation committee, and cloth weaving factory was opened in 1908 in | while the police regulations have already been promulgated and are in force. The criminal looms and other machinary of modern make procedure code is in the course of drafting and the commercial code and the civil procedure code are also being drafted. the one by Dr. Shinda and the other Mr. Matsucka. The civil code is to be drafted by Mr. Matsucka on the completion of the civil procedure law. The date of above laws coming into force was prefixed at next year, but it is likely to be postponed for some time. Those several codes compiled under my supervision are in the main based on the spirit of Japanese laws, but there exists some difference in their aspect betwirt the Chinese laws and Japanese. Particulars about these matters will be made public shortly.

Dr. Okada has brought back several thousands of old rare curios collected in China. Among them there are about a hundred small statues of gold and copper made in the period as old as the six dynasties (rikucho), namely, Wu, East Hein. Sung, Chi, Liang, and Chen, and Sui and Tang down to the Ming dynasty. Some of them are of rare value, the like of which is seldom found in this country .- " Japan Times."

#### WEATHER REPORT

The Hongkong Observatory yesterday issued the following report: -On the 21st at 11.55 a.m. -The barometer has fallen moderately over Tongking, and risen slightly in Haiphoug.

The depression has moved into the North part of the Gulf of Tongking, and the neighbourhood of Hongkong is again threatened. The Manchuria depression is approaching Vladiwostok.

Pressure has increased moderately over N. China and given way again over the Philippines. It remains high over the Pacific to the South

Light variable winds may be expected in the Formosa Channel and fresh to moderate S.E. and E. winds along the S. coast of China. Hongkong rainfall for the 24 hours ending at 10 a.m. to-day, 0.17 inches.

The forecast for the 24 hours ending at noon

Hongkong & Neighbourhood(\*) (Variable winds, Formosa Channel South coast of China between 7 Same as No. 1 Hongkong and Lamocks. South coast of China between ) Hongkong and Hainan ... fresh.

# TOOK MY WRINKLES

AFTER MASSAGE, CREAMS, AND BEAUTY DOCTORS HAD PAILED.

BY HARRIETT META.

Trouble, worry, and ill-health brought me deep lines and wrinkles. I realised that they not only greatly marred my appearance and made me look much older, but that they would greatly interfere with my success, because a woman's success, either socially or financially, depends very largely on her appearance. The plain woman with deep lines and furrows in her

face must fight an unequal battle with her younger and better looking sister. therefore bought various kinds of cold cream and skin foods and massaged my face with most constant regularity, hoping to regain my former appearance. But the wrinkles simply would not go. On the contrary, they seemed to get deeper. Next I went. to a beauty specialist, who told me she could easily

rid me of my wrinkles. I paid the money and took the treat. ment. Sometimes I thought they got less, but after spending all the money could afford for such treatment, I found I still had my wrinkles. So I gave up in despair, and concluded I must carry them to my grave. One day a friend of mine. who was versed in chemistry, made a suggestion, and this gave me a new idea. I immediately went to work making experiments and studying everything I could get hold of on the subject. After several long months of almost num. berless trials and discouragements. finally discovered a process which produced most astounding results on

my wrinkles in a single night. I was

delighted beyond expression. I tried. my treatment again, and, lo and behold, my wrinkles were practically gone. A third treatment three nights in alland I had no wrinkles, and my face was as smooth as ever. I next offered my treatment to some of my immediate friends, who used it with surprising results, and I have now decided to offer

> great and wrinkles. others failed, stand alone as a success." J

to anyone who is interested free of charge. I use no cream, massage, face steamings, bandages or straps; there is nothing to inject and nothing to injure the Skin. It is an entirely new discovery of my own, and so simple that you can use it without the knowledge of your most intimate friends. You apply the treatment at night and go to bed. In the morning, lo: the wonderful transformation. People often write me: "It sounds too good to be true." Well, the test will tell. If interested in my discovery, please address HAR-RIETT META, Dept. 155, 61, New Oxford Street, London, Eng., and I will send full particulars?

it to the public. Mrs. J. E. Black, of Yonkers, N.Y., that when she looks in the glass she scarcely knows herself.

the improvement is so that her wrinkles are entirely removed. Rev. Josephine Talmage, of Chicago, Ill., says: - Your system is the only treatment in the world that moderate. will actually remove When all will send further particulars Hongkong, 28th May, 1909.

A pply— Hongkong, 31st May, 1909

# PREMIUM BONDS

WF are the largest Dealers in the world in these attractive WHAT ARE THESE BONDS?

They are high-class and absolutely safe securities, payable to bearer, second the various Governments and Municipalities of Europe; they are redeat periodical drawings, either with Cash Premiums varying from 240 to 240,000 or, at the very least, at their full nominal value. EASY PAYMENTS.

We sell these Bonds singly or in combinations of the most advantageous ones, payable by convenient Monthly Instalments ranging from 15s. to £20. Write for Handbook, sent post free.
